

Hands On Sheet

Session 1 (09.09.2021; 11:30-12:30)

1. Explore the VeusZ main window.
2. With the VeusZ main window open upload the file `madeira_tourism.vsz`.
 - 2.1. Explore the different plots.
 - 2.2. Change the plot title and its font.
 - 2.3. Create a PNG file of the plot.
 - 2.4. Remove from the canvas three of the four plots and print the final result into a pdf file.

Session 2 (09.09.2021; 14:00-15:30)

1. Using the data files “`guests_per_100.csv`” and “`average_stay.csv`” reproduce from scratch and independently (that is, as single plots) the corresponding plots in the `madeira_tourism.pdf` file.
2. Draw the two plots side by side and export the final result to a tiff file.

Session 3 (10.09.2021; 10:45-11:45)

1. Using the data file “`Data_Shakespeare.csv`” reproduce the number of scenes vs. number of characters plot displayed in `Shakespeare_Plot_1.pdf` file. Determine the type of curve connecting the dots.
2. Label each one of the dots indicating the name of the play.
3. Create a pdf and png files of the final plot.
